"Resolution passed by the Board of Trustees, May. 4, 1932;

"Resolution passed by the Board of Trustees, and the Society of the Board of Trustees, it is hereby declared to be the sense of the found arising from sale of the same to be invested for the benefit of the portioners, it is hereby declared to be the sense of this Board, that the fonds now remaining in their hands be appropriated in such way as may be directed by a majority of the male members of the Church, of the standing at the time

be directed by a majority of the male members of the Charch, of twenty one years of age, and of one year standing at the time said thereby was sold, and that the present place of residence or such members be essertained, so far as practicable and notice per sonally served on them, of the time and place of a meeting of said members, to be called for said purpose, on or before the lat of November next."

Words of Warning, THE SEASON OF COLDS AND GHS is now approaching. The weak and delicate efore heware. As a preventive of these common an complaints, no medicinal compound or discovery has factual as the use of a good Strengthening Plaster.

therefore beware. As a prevention of discovery has proved so effectual as the use of a good strengthening Flaster. Every practical physician knows this fact, and every man and woman should be sware of it. If all those who are subject to exposure, or who are naturally delicate and predisposed to primonary complaints, would habitually wear a proper Plaster during the Fall and William Whiter months, the annual deaths by consumption in the United States would be discreased one thousandfold. Until this is done our national scounce will continue its destructive march, desclating households, and numbering among its victims the best and the fairest of all ages, classes and conditions.

It is surely most strange when so cheap, so simple and so certain a means is at hand, that it is not embraced by all whom it would benefit. Any good Plaster will answer a good purpose, but the pecular projecties of MOREHEAD'S MAGNETIC PLASTER must recommend it as the every less. It is application is werm and soothing; its effects are immediate and permanent, and it imparts strength while its subdues pain. It is therefore, almost a positive autidote to Pulmonary attacks while worn and as a prempt remedy for these dangerous affections, a single box is worth all the islaims, Bulsams, Syraps, Ellisirs and Pectorals which modern politanthropias extend so institution that the institution are enough one of these "wond-rial remedies." The truth's that in matters relating to our health we seldem use our common sense. How can about our health we seldem nee our common sense. How can a bottle, or a hundred bottles, of sweetned water, with a little laudanum and specae, care a cold or stop a count! How can it protect a weak chest and delicate lungs! How can it do any good whatever! Thousands of ad leasts are now grieving in response. It is aboninable wickedness to recommend such absorbing but a recovery, we should say to the "dear people," spend your money as you piease, no serious harm can result. But real letters spelling CONSIMPTION stare every one face who has a coul, and begrees to be beps that he will be an exception. Look at the weekly lists of mortality, or number your own friends and rentires who have not been exceptions!

We have no destree to frighten any one into the unimportant matter of buying the MA(NETIC PLASTER, but we have a desire to speak plainly. The Paster which we recommend is a desire to speak plainly. The Paster which we recommend is a common-same article, destitute of any elements of deceil or humbur. We believe its extended and saircread employment as a bield against the influences of our changeable climate will prove a benefit and a biessing to our fellow-men, and we therefore take means to tell them so. No declicate person, at this season, should be any hour without the MAGNETIC PLASTER. Its cheapness is not the least of its recommendations. A single box will last the whole Wister. Price 25 cts.
